Jeaneanne – We just received the email below from the FDEP assumption team requesting to talk about a comment they received from a third party (attached). As you'll see, it is specifically related to the 5-year permitting issue. I want to be responsive but recognize that any feedback needs to be cleared through senior management. I'd appreciate your input before responding. Tom

Heather and Jessica –

Attached is a proposed addition to the 404 Assumption Rule. After you have had a chance to review, Kerri Barsh and I would like to discuss the possibility of adding this section to the rule in order to build upon the successes from the Lake Belt approach. Thank you in advance for your consideration. –
Ernie
